

Remarks:

In response to the objections under 37 CFR 1.821-1.825 in the Notice To Comply, enclosed herewith are two copies (diskettes) containing the sequence listing for the instant application in computer readable form and a paper copy of the sequence listing. The sequence listing information recorded in computer readable form is identical to the written sequence listing in the application as filed and with the enclosed paper copy. No new matter is added.

In addition, in the Notice to Comply the specification was objected to for failure to identify certain sequences disclosed in the specification by Sequence Identification Numbers. In particular, the Examiner noted the two amino acid sequences at page 70 of the specification were not in compliance.

Applicant has amended the specification to identify the amino acid sequences at page 70, and thereby bring the specification into compliance.
